PROGRAMME REPORT

The virtual lecture by Dr. Senthil Kumar M on Research Methods was the first lecture in the Lecture Series on Research Methods Organised by the Research Committee , Tagore Dental College . The lecture began at 1 pm through Google Meet Portal and had over 75 participants . Dr. Senthil Kumar . M . The topics covered were life cycle of Research , Framing a Research question , Study Objective , Study Designs , Ethics Guideline. Post the session students and faculties enthusiastically interacted with Dr. Senthil Kumar . M to get their queries answered and he patiently clarified all the doubts . Overall it was a wonderful session and all the students and faculties are looking forward for the upcoming session to be held in the month of August 2021.

PHOTOS

Sendhil Kumar is presenting

Ecological studies

- Group as the unit of analysis
- Unit of study is the aggregate data not individual level.
- Relate whether populations with high rates of disease also have high frequency of the suspected exposure
- The results are difficult to interpret because of confounding and bias.

Respected madam,

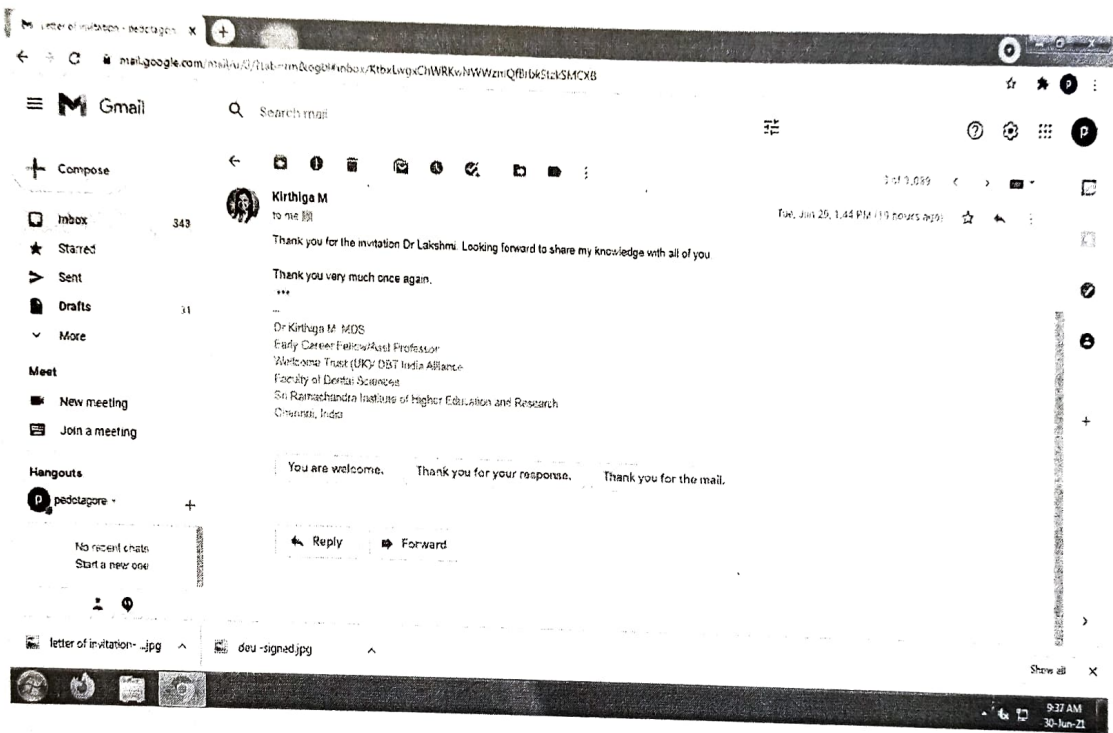

Subject : Invitation to deliver a guest lecture (Webinar) for CRRI Post Graduate students and Faculty members.

We are pleased to invite you to deliver a Guest lecture (Webinar) for our CRRI Post Graduate students and Faculty members and enrich their knowledge on the subject. The event is scheduled on 14th July 2021 (Wednesday) from 10:00 to 11:00 am and the topic would be "Grant Writing - The path to Quality Research". Thank you in advance for your consideration and we very much look forward to your response accepting our invitation.

Thanking you,

Yours sincerely, 29/6/2021
Dr. R. Jayaprakash
HOD, Dept of Pediatric
& Preventive Dentistry

LETTER OF ACCEPTANCE

PROGRAM REPORT

GRANT WRITING – THE PATH TO QUALITY RESEARCH

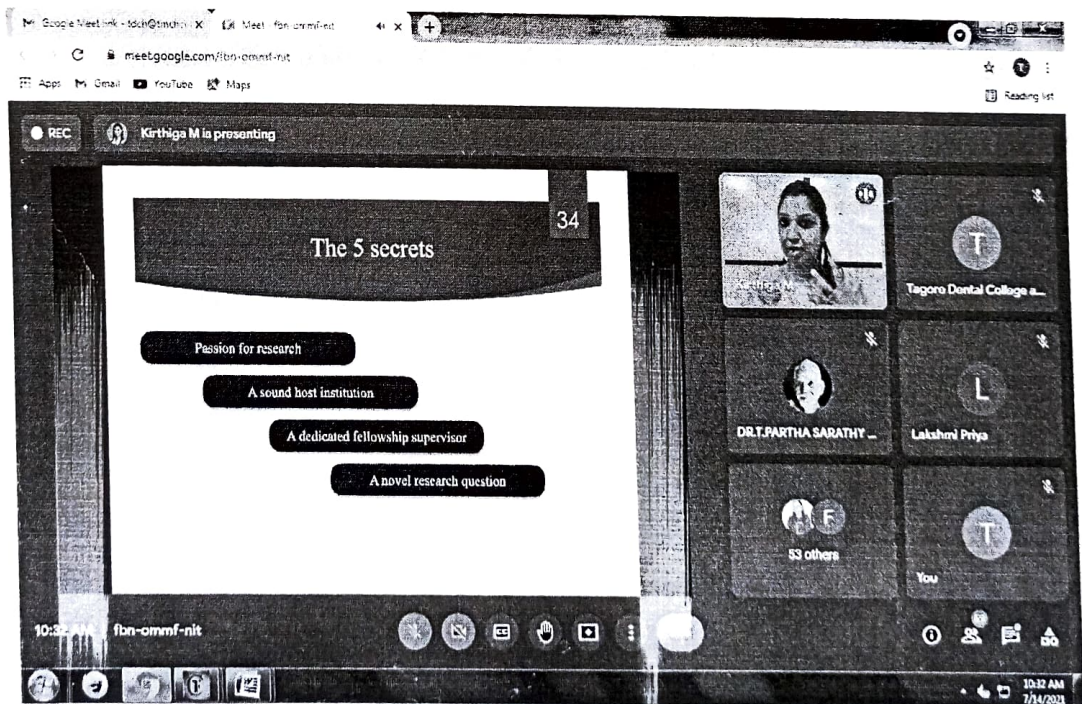

Grant writing is the only gateway to quality and focused research. This is definitely the need of the hour especially in India, where funds are available, but not tapped by the researchers due to lack of knowledge. Research being a never ending quest requires investing one's intellect, time and money. In order to carry out focused, quality research, the art of grant writing must be mastered.

Our guest speaker **Dr.Kirthiga.M** gave an insightful lecture about the various grant agencies in India and also shared a simplified checklist to succeed in grant writing. The speaker also gave a glimpse of her success story that was motivational for the participants. The lecture was followed by an interactive question and answer session that clarified the participants' queries.

REPORT

Research is a scientific and systematic search for pertinent information on a specific topic. Research methodology is a way to systematically solve the research problem. The Department of Public Health Dentistry, Tagore Dental College and Hospital conducted an online guest lecture titled “**RESEARCH METHODOLOGY**”, on Thursday (29-07-2021) at final year Google meet classroom. Around 89 final year students and Dr. Vaishnavi, Reader, Dr.Kumara Raja, Senior Lecturer, Dr. Lakshmi Krishnan, Senior Lecturer from Dept of Public Health Dentistry had participated in the webinar. The guest Speaker for the webinar was **Dr. L. Leelavathi MDS (PhD)** who currently works as Senior Lecturer in department of Public Health Dentistry at Saveetha Dental College and hospital, Chennai, Tamil Nadu. She has a vast teaching experience for 6 years. Our speaker had published around 75 articles in various indexed national and international journals.

The webinar started at 11.30 AM with an introductory note about the speaker by Dr.Kumara Raja, Senior lecturer, Department of Public Health Dentistry. Later, **Dr. L.Leelavathi** continued the session and gave insights to the

students about research and its significance, various study designs. She also elaborated on types of data, various parametric and non-parametric tests to be used in research. The students actively interacted with the speaker and clarified various doubts to enhance their knowledge on the topic.

The session finally came to an end by giving vote of thanks by Dr.Vaishnavi.S, Reader and Head In charge, Department of Public Health Dentistry. We thank our chairperson Prof. Mala mam and our Principal Dr.Venkatakrishnan sir for giving us an opportunity and encouragement to conduct this guest lecture.

INVITATION FOR GUEST LECTURE- TDC&H

Deepa Boppana <intellpat@gmail.com>

Tue Aug 17, 2021 at 1 07 PM

To: Tagore Dental College <tagoredch@gmail.com>

Dear Sir,

We thank you for your invitation.

I herewith give my consent to deliver the lecture on said date and so also discussion with the inventors.

Please find below one para writeup on my credentials.

"Dr. Deepa is a registered Indian patent attorney and holds a doctoral degree in Analytical Chemistry and Bachelors in Law. She obtained Women Scientist scholarship award specializing in intellectual property rights instituted by Department of Science and Technology (DST), Govt. of India. She has several years of experience in the field of IPR. Presently she is running an IP firm INTELLPAT Patent Solution in chennai. Dr. Deepa has profound potency in diverse technical fields for patents including Physical Sciences, Life Sciences, Biotechnology, Pharma, Medical etc. Dr. Deepa offers services to R&D labs, industries and academic institutions and provides assistance right from drafting the application, filing and prosecuting till grant."

Regards,

Dr. Deepa

REC Navneeth Selvan is presenting

SUMMARY OF ICH-GCP guidelines

- All clinical trials should be conducted in accordance with ethical principles, sound scientific evidence and clear detailed protocols.
- The benefits of conducting trials should outweigh the risks.
- The rights, safety and wellbeing of trial participants are of paramount importance and these should be preserved by obtaining informed consent and maintaining confidentiality.
- The care must be given by appropriately qualified personnel with adequate experience.
- Records should be easily accessible and retrievable for accurate reporting, verification and interpretation.
- Investigational products should be manufactured according to Good Manufacturing Practice

WEBINAR ON GRANT APPLICATION

The IQAC of Tagore dental college and hospital organised a webinar on 'GRANT APPLICATION' under the leadership of Dr. C.J Venkatakrishnan, Principal & IQAC Chairman and Dr. S Balagopal, Vice-principal & IQAC Coordinator for the faculty and post-graduate students. Dr. Shalini Gupta was invited to be the guest speaker to share her expertise on the topic.

The program started with the welcome address by Dr. C. J Venkatakrishnan, Principal followed by a brief introduction of the speaker by Dr. S. Balagopal.

Dr. Shalini Gupta delivered an extensive, engrossing and informative lecture on the process of applying for grants. Some of the topics covered during the lecture were

- Importance of grant proposals in our career
- External funding opportunities
- Application process
- Good design of research proposal for grant application
- Grant writing tips
- Pitfalls and solutions

The session ended with vote of thanks by Dr. S Balagopal. There were 120 participants in the webinar. The program was well received by the participants and their feedback were collected.

REPORT

Epidemiology is the study of how often diseases occur in different groups of people and why. Epidemiological information is used to plan and evaluate strategies to prevent illness and as a guide to the management of patients in whom disease has already developed. The Department of Public Health Dentistry, Tagore Dental College and Hospital conducted an offline guest lecture titled "**GENERAL EPIDEMIOLOGY**", on Monday (28-03-2022) at final year classroom. Around 56 final year students had participated in the guest lecture. The guest Speaker for the lecture was **Dr. S. SIBYL MDS** who currently works as Reader in department of Public Health Dentistry at SRM Kattankulathur Dental College and hospital, Chennai, Tamil Nadu. She has a vast teaching experience for 9 years.

The lecture started at 8.30 AM with an introductory note about the speaker by Dr. Vaishnavi.S, Reader and Head(I/C), Department of Public Health Dentistry. Later, **Dr. S. SIBYL** continued the session and gave insights to the students about general epidemiology, various study designs. She also elaborated on descriptive epidemiology, analytical epidemiology and various types of study design used in the field of epidemiology. The students actively interacted with the speaker and clarified various doubts to enhance their knowledge on the topic.

The session finally came to an end by enlightening the students about the importance of guest lecture and certificate was given to the guest lecturer by Dr.C.J. Venkatakrishnan sir. We thank our chairperson Prof. Mala mam and our Principal Dr. Venkatakrishnan sir for giving us an opportunity and encouragement to conduct this guest lecture.

Guest lecture – General Epidemiology

FEED BACK

STUDENT YEAR OF STUDY:

1. KNOWLEDGE BASE OF TEACHER

2. COMMUNICATION SKILLS (ARTICULATION AND COMPREHENSIBILITY)

3. SINCERITY / COMMITMENT OF THE TEACHER

4. INTEREST GENERATED BY THE TEACHER

5. ABILITY TO INTEGRATE COURSE MATERIAL WITH ENVIRONMENT/ OTHER ISSUES, TO PROVIDE A BROADER PERSPECTIVE)

6. ABILITY TO INTEGRATE COURSE WITH OTHER COURSES

7. ACCESSIBILITY OF THE TEACHER IN AND OUT OF THE CLASS

8. ABILITY TO DESIGN QUIZZES/ TESTS/ ASSIGNMENTS/ EXAMINATIONS/ PROJECTS TO EVALUATE STUDENTS

9. PROVISION OF SUFFICIENT TIME FOR FEED BACK

10. HOW WELL WAS THE TEACHER ENCOURAGES PARTICIPATION IN CLASS

11. HOW HELPFUL WAS THE TEACHER HELPFUL IN ADVISING

12. TEACHERS APPROACH CAN BE BEST DESCRIBED AS

13. HOW OFTEN DID THE TEACHER PROVIDE FEEDBACK ON YOUR PERFORMANCE

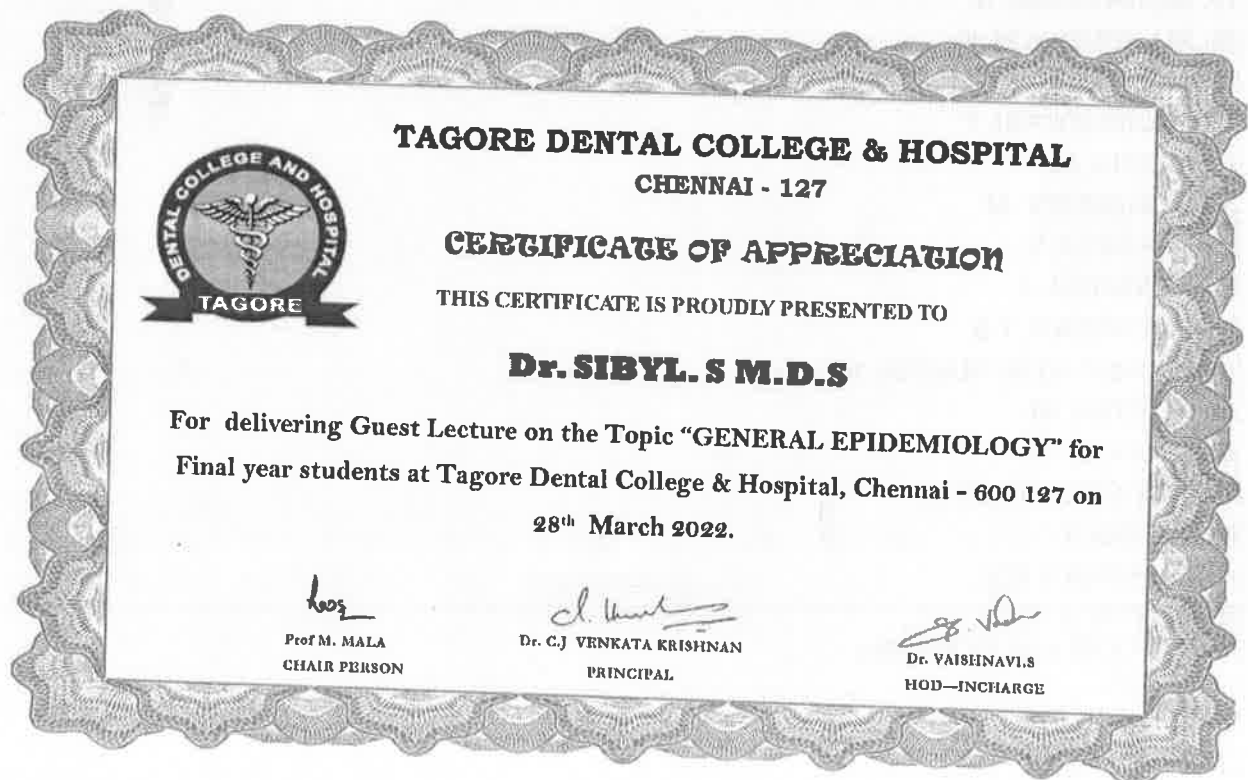

14. OVERALL RATING

ADDITIONAL COMMENTS AND SUGGESTIONS FOR FUTURE

- Good
- No suggestions
- Good learning session
- Need more lectures
- Informative lecture
- Useful lecture
- The session was very useful.
- It's was a great and detailed lecture
- Great session
- Very useful and informative
- More such sessions will be helpful

REPORT

Students welfare committee conducted this program on grooming in dentistry for the CRRRI of Tagore Dental College, The Speaker was welcomed and introduced by Dr Vandana James and Dr Balaji Krishnan the chairperson of student's welfare committee. The Speaker Dr Dr. Sana Farista (Entrepreneur, Researcher, Speaker and Author) has an extensive knowledge on the subject and she started a highly interactive lecture on why grooming is important for doctors and highlighted on the common errors in grooming. She also nteracted with students to understand their thoughts on grooming. Finally, she gave an in-detail description of how grooming should be done and how to develop your personality. Vote of thanks was given by Dr Balaji K and certificate was presented online by Dr Bala Gopal, Vice Principal, Tagore Dental College.

Distribution

- When we measure a quantity in a large number of individuals we call the pattern of values obtained a distribution.
- For example, figure shows the distribution of serum albumin concentration in a sample of adults displayed as a histogram.

Journal of Dentistry and Oral Hygiene

Full Length Research Paper

Dental professionals' attitude towards biostatistics

Asheth C. Shetty¹, Nours M. Al-Rashoud² and Sara A. Alward³

Research Article | Open Access
Volume 2014 | Article ID 250007 | <https://doi.org/10.1155/2014/250007>

Show details

Perception of Dental Professionals towards Biostatistics

Mary Betha¹, Hani Gouda², Sukha Soumya Devi³ and Prabhat Rajgopal⁴

- Biostatistics was believed to be a difficult subject by more than 50%
- A very small proportion of respondents were confident enough in designing their own research projects and performing statistical analysis
- Dental professionals showed a low perceived knowledge of biostatistical concepts
- A clear recognition of the importance of these issues
- There is a need of changing the training pattern - An integrated approach to teaching biostatistics with clinical relevance
- Problem based learning into biostatistics course which can be quite helpful

Descriptive statistics

- For continuous variables (e.g. height, blood pressure, body mass index, blood glucose)
- Histograms
- Measures of location
 - mean, median...
- Measures of spread
 - variance, standard deviation, range, interquartile range

Descriptive statistics (2)

- For categorical variables (e.g. sex, dead/alive, smoker/non-smoker, blood group)
- Bar charts, (pie charts)...
- Frequencies, percentages, proportions
 - when using a percentage, always state the number it's based on
 - (e.g. 68% (n=279))

Measures of Central Tendency

A measure of central tendency is a single value that attempts to describe a set of data by identifying the central position within that set of data.

- **Mean:** The arithmetic average of the dataset is the mean.
 - The sample mean is the arithmetic average of the sample, denoted by \bar{x} .
 - The population mean is the arithmetic average of the population denoted by μ .
- **Median:** The median is the middle value of the dataset when it is arranged in ascending order.
 - For an odd number of data points, median equal to the middle data point.
 - For an even number of data points, median is equal to the mean of the two middle data points.
- **Mode:** The data value that occurs with the greatest frequency is the mode.
 - A dataset can have more than one mode
 - Both Categorical and Numerical Variables can have mode, but only Numerical Variables can have mean and median

Measures of Variability/ Dispersion

- **Standard Deviation:** It is the measure of the amount of variation or dispersion of a set of values.
 - The sample standard deviation is the square root of the sample variance: $sd = \sqrt{s}$
 - The population standard deviation is the square root of the population variance: $sd = \sqrt{\sigma^2}$.

	Variance	Standard Deviation
Population	$\sigma^2 = \frac{\sum (x_i - \mu)^2}{N}$	$\sigma = \sqrt{\frac{\sum (x_i - \mu)^2}{N}}$
Sample	$s^2 = \frac{\sum (x_i - \bar{x})^2}{N - 1}$	$s = \sqrt{\frac{\sum (x_i - \bar{x})^2}{N - 1}}$

COEFFICIENT OF VARIATION

- ❖ SD depends on the unit of measurement
- ❖ The coefficient of variation is a measure used to compare the variability among two or more sets of data representing different quantities with different units of measurement

For instance, the strength of two types of prefabricated posts, carbon fiber post (CFP) and polyethylene fiber-reinforced post (PFRP), on endodontically treated teeth are being studied.

The sample mean and the sample SD of the fracture load for CFP are $\bar{X}_A = 67.57$ kg and $S_A = 26.57$ kg, and those for PFRP are $\bar{X}_B = 132.55$ lbs and $S_B = 36.19$ lbs, respectively

Probability

What is the chance that titanium implants placed in patients who smoke more than 20 cigarettes a day will survive 5 years?

- ❖ A probability is a number that reflects the chance or likelihood that a particular event will occur.
- ❖ Expressed as proportions that range from 0 to 1, or percentages ranging from 0% to 100%
- ❖ A probability of 0 indicates that there is no chance whereas a probability of 1 indicates that an event is certain to occur. A probability of 0.45 (45%) indicates that there are 45 chances out of 100 of the event occurring.
