

"SOCIAL RESPONSIBILITIES DURING COVID TIMES"

When the Covid 19 disease was declared a pandemic and a nationwide lock down was imposed and the worldwide healthcare systems was severely challenged. Even during these difficult times, Considering the social responsibility, when most private hospitals shut down, we formed a skeleton OP with 6-8 Faculty at Tagore Dental College and hospital to Diagnose and treat Patients, taking all Covid 19 Precautions and protocols into Consideration. All the patients who visited Tagore Dental College during the pandemic were also educated on safety protocols to be followed during pandemic. Awareness posters displayed around college. Siddha Medicine, Kabasura Kudineer, an immunity booster was given to all patients around the campus as a part of NSS activity.

"SOCIAL RESPONSIBILITY EXHIBITED BY OUR STUDENTS"

During Covid period, the students of I, II, III, IV year of Tagore dental college and hospital created awareness among the public by creating posters and display boards regarding "Covid Appropriate Behaviour". These posters were displayed in the public places like streets, shops etc., The students distributed the pamphlets on COVID protection measures to the people and the people were asked to maintain social distancing. The students provided sanitizers to the people who received the pamphlets. The students created the awareness on the importance of wearing masks in an appropriate way. Rangoli and drawings were done by the students in the streets. Appropriate hand washing technique and social distancing among the students and staff were followed in the college.

COVID VACCINE

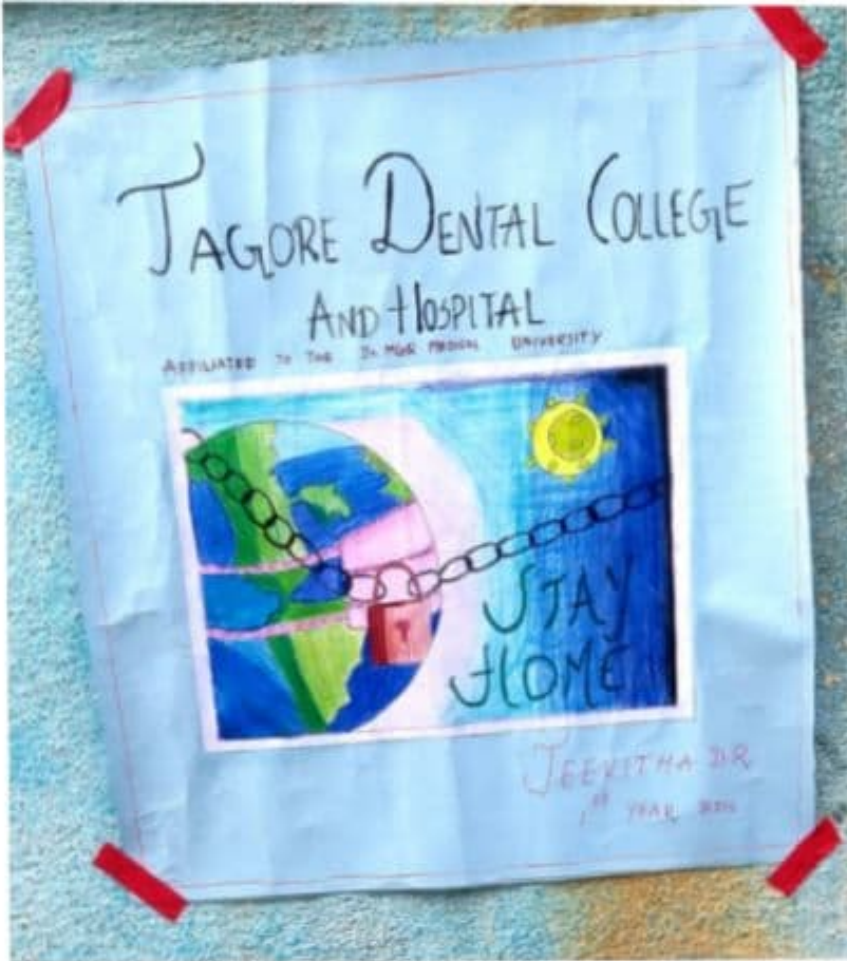

PRESENTED BY,
Jayashri Pallabiraman
Tagore dental college
(Affiliated to M.G.R. University)

MYTHS VS FACTS

1. Covid 19 vaccine alters DNA 2. It is safe because of quick rollout 3. Food allergy, immunocompromised, breastfeeding or pregnant people can't get the covid vaccine 4. I'll get covid 19 from vaccine 5. I've had covid 19, so I don't need the vaccine 6. No need for mask or social distancing after vaccine	1. mRNA doesn't enter a cell's nucleus and cannot change DNA 2. Thorough safety standards and trials were met 3. These people can get the vaccine 4. The vaccine cannot give you the virus, it protects you 5. Natural immunity length is unknown vaccine fights reinfection 6. You must still take precaution to help end the pandemic
